Government recognised star export houses trust Shipzy

Our Customers

“10/10! Shipzy team is very supportive and quick, we can use Shipzy from anywhere and our team communication as well as efficiency increased manyfold.”

Raj Masala ★★☆☆ Export House
Spice Exporter(Since 1983)

About Company

Shipzy's journey began with two custom software solutions developed for a spice exporter and Dehydrates exporters.

Through these experiences, we identified a crucial mission: to address the challenges faced by exporters, such as limited data visibility, accessibility issues, document generation errors, and the difficulties of managing operations without standard processes, often relying on Excel spreadsheets. This understanding inspired the creation of Shipzy.

At Shipzy, we are committed to transforming how export businesses operate. Our cloud-based software provides comprehensive solutions that automate and streamline export processes.

Shipzy is an all-in-one solution for Indian export businesses, offering easy-to-use UI and exceptional customer support.

Business Benefits

- ▶ Centralised system to manage your business
